

Hello,

Skies are looking clear for tomorrow's Watershed Wide Event **and Tryon Creek Community Celebration!** No need to RSVP if you'd like to join us at one of our sites tomorrow: just read below for site details. If you aren't joining us in the morning, you are still welcome to join us for pie and community camaraderie at our celebration at noon tomorrow at Riverdale High School: just read that section in the below message.

Thank you for volunteering this Saturday (9am-12pm) for Tryon Creek Watershed Council's [Watershed Wide Event!](#) You will be at one of *eight* concurrent work parties happening throughout the Tryon Creek watershed for Watershed Wide, and we are so grateful for community members -you!- who are coming together to steward this unique and healthy urban watershed!

Hope to see you afterwards for pie and connecting :)
Below our site map are details for each of the volunteer site locations.

If you're part of a student group:

- Riverdale High School students are at the Boonesferry Terrace Greenspace;
- Lewis & Clark students are mostly going to the Lewis & Clark site, walking as a group from Fowler (bon entrance) at 8:45.
- If you're under 18 & volunteering solo please bring a [signed Unaccompanied Youth waiver!](#)

Site details are below the site map

What to bring:

Please remember to bring a water bottle and snacks, gloves if you'd like, and dress in good shoes and layers for the weather (and possibly, mud!).

You may wish to bring a **change of shoes**/clothes for the gathering afterwards.

Tools, instruction, and snacks are provided at each site.

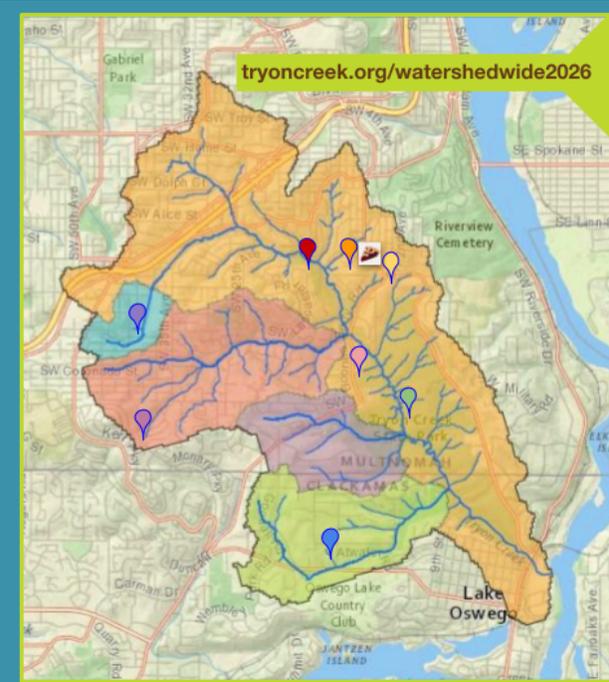

Community Creek Celebration afterwards:

Join us at Riverdale High School (9727 SW Terwilliger Blvd). Please **park to the right** side of the building, *not* the left, to avoid basketball game parking. *If you RSVP'd by 5pm March 13th and selected a lunch order, this will be your pickup spot!*

Regardless, this celebration is open to all and we hope you join: We will have a Community Pie Table (please feel free to bring a pie to share!), and share about the West Willamette Watersheds ([W3](#)) Collaboration!

West Willamette Watersheds (W3) Info Session: Learn from us and share your thoughts about this process we're engaging in with Oswego Lake Watershed Council, to establish watershed council coverage in areas without an established WC presence (tributaries draining directly into the Willamette River, looking north through Forest Park, and south through West Linn & Wilsonville).

Alexis

Tryon Creek Watershed Council's
17th Annual
Watershed Wide Event

9am - 12pm, Saturday, March 14, 2026

Volunteer Event Locations

-  Marshall Park
-  Boonesferry Terrace Greenspace
-  Lewis & Clark College

tryoncreek.org/watershedwide2026

Volunteers needed here!

Mountain Park HOA at Arnold Creek Headwaters

with Oswego Lake Watershed Council

Join us as we plant some live stakes and pull ivy, and learn about the background of work in this area. Tools, gloves, and instructions (and coffee & breakfast snacks!) will be provided.

Neighborhood parking: the nearest address is 7 Partridge Ln, Lake Oswego

Where to meet at 9am:

→ For day-of event questions, contact Jack Halsey (503 754-8770). Please let him know if you are running late or will no longer be able to make it.

Volunteers needed here!

Lake Oswego United Church of Christ (LOUCC)

1111 Country Club Rd, Lake Oswego, OR 97034

At this site you will be mostly focused on invasive species removal, including English ivy removal - but maybe some folks can tackle Armenian/Himalayan blackberry.

Gloves, tools, and instructions will be provided (as will snacks), but if you have your own gloves, and/or tools, feel free to bring them! (Double-layered regular & leather gloves are great for blackberry removal!)

→ For day-of event questions, contact Kathy at 971 322-9382. Please let Kathy know if you are running late or will no longer be able to make it.

Boonesferry Terrace Greenspace

- Students, please print and bring the **waiver** signed by your parent or guardian.
- We will meet at **9845 SW 6th Ave** at 9am for information about and direction to the site (essentially just behind the homes there).
- Directions: From Terwilliger Blvd, turn onto SW 6th Ave (if heading North on Terwilliger, this is a left turn after Riverdale HS; if heading South on Terwilliger, this is a right turn before Riverdale HS) - then just stay straight on SW 6th heading downhill. This work area is a greenspace behind the houses at the end of SW 6th Ave.
- We will be removing various invasive plants so that the native plants can thrive and not be outcompeted.

- Tools, gloves, and instructions will be provided (and snacks!). That said, with a variety of species to consider targeting, feel welcome to bring your own gloves -*especially leather gloves*- and tools of choice - handheld loppers, pruners, trowels, and/or shovels.

→ For day-of event questions, contact Megan Hill (503 913-0405). Please let her know if you are running late or will no longer be able to make it.

Jackson Middle School

with Westside Watershed Resource Center
10625 SW 35th Ave., Portland OR 97219

Join us as we remove **English ivy and Himalayan blackberry, and plant native plants** near the community trail on the south side of campus. This ongoing stewardship effort, which began in 2018, helps restore native habitat in the **Falling Creek subwatershed**, a major tributary of **Tryon Creek**.

We'll provide **tools, gloves, and snacks**—all you need to bring is your enthusiasm! We hope to see you there for another great year of making a positive impact on our watershed.

Where to meet at 9am:

Park in the southernmost lot on campus, downhill just past the school buildings. Meet at the dead-end of this lot, past the greenhouses. If you're walking from the neighborhood, this path can be accessed by foot from SW 40th and SW 39th Ave.

→ For day-of event questions, contact Seth Healy at 503 865-6759. He will be your site lead; please let him know if you are running late or will no longer be able to make it.

Lewis & Clark College (Law Campus/Huston Field)

Ariana Scipioni with West Multnomah Soil & Water Conservation District, and our Student Representative Board Members Gwyn Murphy-Cunningham, Isa Simon, and Jordan Owen, will be leading this site.

LC Students, this is about a 15-min walk from the undergraduate campus. A group will meet in front of Fowler (near the bon entrance) to walk together at 8:45.

The work area is along the bike path between Huston & the LC Law school. You can park at the Lewis & Clark Law School campus (**10101 S Terwilliger Blvd**, head to the right (west), [here](#)), or at the Huston Sports complex (10120 SW Boones Ferry Rd).

We will be doing some native plant planting, and removing various invasive plants so that the native plants can thrive and not be outcompeted.

- Tools, gloves, and instructions will be provided (so will coffee and snacks!).
 - For day-of event questions, contact Ariana Scipinoni (971-265-9872), or Gwyn, Jordan, or Isa. Please let them know if you are running late or will no longer be able to make it.

Tryon Life Community Farm

Shuttle from Riverdale High School

- Please note that due to another event at the TLC Farm that day their parking lot will be full, so our group will be carpooling from Riverdale High School (9727 SW Terwilliger). Please park to the right side/back of the building. TLC Farm folks will come shuttle groups down to the park!
- We will be removing invasive blackberries along an ephemeral tributary to Tryon Creek, known as Willow Creek, so that the native plants can thrive and not be outcompeted.
- Tools, gloves, and instructions (and snacks!) will be provided. Due to a limited supply of gloves, you're encouraged to bring your own too (regular layered with leather is very helpful for blackberry!).
 - For questions day-of, please contact Hindi at 503-607-3017.

Marshall Park

With Portland Parks & Recreation

At Marshall Park, you will be planting native plants along the main stem of Tryon Creek!

Tools, gloves, and instruction will be provided, as will coffee and snacks, and there's a porta potty on site. If you have shovels and extra gloves, please do bring them!

Where to meet at 9am: We'll be meeting near the Marshall Park playground at 9am, and working not too far from there (*if you haven't driven to Marshall Park before, please read the directions; the park has multiple entrances and map apps may lead you astray*).

Driving & Parking directions

Address: Park near **9200 SW 12th Dr**, Portland OR 97219 (this will be at a dead-end/turnaround), and head down the stairs to the left of the portapotty to meet near the playground.

Note: Some phone/maps may not take you all the way down SW 12th, so if it's your first time to Marshall Park be sure to **look online ahead of time!** Also, some folks lose cell service in the park.

Directions: From SW Taylors Ferry Rd, turn east/downhill onto SW Taylors Ferry Ct, then S (right) onto SW 12th Dr., and follow the neighborhood road down to the dead-end/turnaround at the end of SW 12th.

→ For day-of event questions, contact Monica Walker (503-823-8367). Please let her know if you are running late or will no longer be able to make it.

Tryon Creek State Natural Area is full.

Enjoy it out there!

We're on Instagram @TryonCreekWC if you'd like to tag us in posts or stories! Keep an eye out on our account that day for updates from the work parties happening across the watershed.

I'm sorry to not get the chance to thank every one of you personally, so please say hello to me at the gathering! I really appreciate your volunteering this weekend!

Thank you!
